MR. KOERMAN,
Editor of the "Alberta Herald."

Mr. Koerman was born Nov. 18th, 1865, at Germany. He came to America in 1881, and followed his business as a printer in Philadelphia, Pa., where he remained for 8 years. In 1889 Mr. Koerman came to Winnipeg, and with his brother-in-law, Mr. H. Brueggemann, started the first German newspaper in the Canadian

west, "Der Nordwesten." Mr. Koerman remained in Winnipeg until the spring of 1903, when he came west, selecting Edmonton as the most suitable city for a German paper, and started the "Alberta Herald" in May, 1903, which has attained the largest circulation of any weekly newspaper in Alberta.

RILEY ELECTED IN GLEICHEN

Liberal Candidate Returned By a Majority of About One Hundred--The Vote By Polls

Bulletin Special

Calgary, Dec. 8.—E. H. Riley was elected by the electors of Gleichen yesterday as member for the Alberta Legislature by a majority which will probably exceed 100. At midnight, with the returns which were received, the majority was 54. The ten polls yet to hear from at the last election gave the liberal candidate a majority of 30, and should do as well or perhaps a shade better this year.

In addition to this a large number of votes were looked up, particularly about Calgary. Of these votes probably 75 per cent are marked red, and in a scrutiny the liberal candidate will increase the majority. Mr. Riley gained about 20 votes in the suburban polls. This was due to the magnificent vote polled at Hillhurst, Mr. Riley's own poll. Perhaps the biggest surprise in the entire vote was in the Nose Creek district. At the last election the two polls in the Nose Creek and Beddington districts, which were combined in one poll at Beddington, gave a conservative majority of 58. Yesterday they gave Mr. Riley a majority of 3. This was due to a certain extent counterbalanced by changes in favor of Mr. Walsh at Delaware, Glenmore, and Sprucevale. The bad weather prevented many from coming out, and the poll was small. The loss to both

parties was about the same. In Gleichen district many Liberals were kept away, while doubtless the bad weather kept down the poll at Nose Creek and Beddington, and kept a majority of Conservatives away. The vote as far as ascertained, together with the vote polled last year, is given as follows:

Place	Dec. 1906	Nov. 1905
Gleichen	43	36
Bassano	3	9
Brooks	3	9
Crossfield	31	31
Airdrie	19	—
Beddington	18	16
Nose Creek	11	10

Glenmore	9	20
Shepard	21	27
Langdon	27	20
Delaware	15	37
Brewery	15	17
Strathmore	6	17
Berrydale	No returns	4
Hand Hills	—	5
Rosedale	—	10
Bow River	—	12
Bullpound	—	20
Winter Hills	—	6
Lille	—	7
Cheadle	—	15
Total	401	347

CLUB'S ANNUAL MEETING

The first regular, and the annual meeting of the Strathcona Club was held in the offices of Mr. H. P. Sandman last night. There was a large attendance of members of the club, and much enthusiasm for the success of the organization. The election of officers for the coming year resulted as follows: President—Mr. W. H. Sheppard. Vice President—Mr. J. J. Lamont. Secretary—Mr. W. H. Sheppard. Treasurer—Mr. W. H. Sheppard. A managing committee was also appointed as follows: Messrs. O. Bush, J. R. Lavall, W. H. Sheppard, J. J. Lamont, F. C. Jamieson, George F. Lamont, W. H. Marrott, Arthur Pearson and Major Iremonger. Three members of this committee will retire next year and three the following year, while three will hold office for three years. The new portable house recently purchased through the agency of Mr. Iremonger, is expected to arrive in a few days and it is expected that the club will be comfortably housed in their new quarters by the first of the year.

A Final Word From Alderman Bellamy

"There is one thing that pleases me in this campaign," said Mr. Thomas Bellamy this morning, "and that is that the issues are issues with which I have been identified for many years past. I may be pardoned a certain amount of modest pride when I say that it pleases me to know that the hopes which we had ten and fifteen years ago of Edmonton's future are being realized today and as one of Edmonton's old-timers, I feel gratified in our expectations of the city's greatness are being fulfilled."

"Whether elected or not—and I certainly expect to be elected—I will always feel proud to have been a resident of Edmonton for the past decade and to have been one who took the chances which in early days were founded mainly on hopes and expectations. And now in the day of fulfillment it is a matter of great satisfaction to me to know that the years I have lived in the city have not been wasted years."

Election Address

The chief planks in my platform for Aldermanic Honors are:

- (1) My strong opposition to the division of the city. I want stand for east or west. I stand for Edmonton as a whole. Such a division would jeopardize the welfare of the city.
- (2) Municipal ownership of public utilities.
- (3) Waterworks and sewerage extended all over the city and to make it compulsory for every dwelling to be connected therewith and wells to be done away with.
- (4) Reconstruction of the health department.
- (5) All municipal works to be done by day labor.
- (6) To make Edmonton a great manufacturing centre.
- (7) To build the street railway to the extreme city limits, where people will be forced to use it. A street railway built only a few blocks from the business centre is doomed to disaster and a great loss of money to the ratepayers.
- (8) I am strongly in favor of building a covered market as soon as possible.

I will not be able to give you all a personal call so take this opportunity of thanking you in anticipation of your support should my views meet with your approval.

I call myself a western man with western ideas, having been west 18 years and lived in those up-to-date cities Vancouver and Seattle. If elected I shall endeavor to put Edmonton on a par with these cities.

Your obedient servant,
William Sennett Weeks

THE TROUBLES OF A CANDIDATE

Mr. H. J. Dawson, one of the mayorally candidates, honors the Bulletin by some attentions which will be found elsewhere in the present issue. While duly gratified that we have been the means of providing the gentleman with some "amusement," the tone of his letter strongly suggests that the entertainment afforded was rather less than the heat engendered.

As Mr. Dawson is pleased to construct this Bulletin's support of Aid Fellowship as an attitude of hostility toward his own candidature we may be permitted to assure him that if we have refrained from the course of retelling reasons why Mr. Dawson should not be elected it has not been because such reasons do not exist. And if, under the encouragement of his courteous communication we still refrain from doing so, it may be partly because the communication itself largely supplies the reasons.

The suggestion that he considers himself entitled to the support of the Bulletin because of his support of Liberal candidates in provincial or federal elections hardly comes with good grace from a candidate for public office. If Mr. Dawson lent his aid to the election of Liberal candidates for political honors, he surely did so for for good of the country rather than the hope of reward. Municipal elections in Edmonton are not decided on the basis of political affiliation and if Mr. Dawson has doubted himself with the contrary view, the fault can scarcely be charged against the Bulletin.

Mr. Dawson's recital of his business experience will doubtless prove both informing and interesting to the ratepayers. But they may be disturbed by a mild wonderment that the former manager of a brewery and owner of so valuable old stocks, should be reduced to the extremity of living in a city of whose citizenship he appears to have no poor opinion. And they may gather from this circumstance that the genius which the gentleman displayed in these enterprises was scarcely sufficient to qualify him for the mayoralty of Edmonton.

Polling takes place Monday for the election of a mayor and five Aldermen.

The four candidates for aldermen receiving the highest number of votes, will be elected for two years, and the one receiving the next highest will be elected for one year.

There will be two polling places, one in the council chamber of the city hall and the other at Housington's fur store, between First and Second streets, on the south side of Jasper.

All voters whose property on which they qualify, is situated east of First street, will vote at the city hall. All those whose property is situated west of First street will vote at Housington's fur store.

The polls will be open at 9 a.m. and close at 5 p.m.

The returning officer is John McLennan. During the day he will be between the two places. N. P. Harbottle, deputy returning officer, will be in charge of the west end polling station, and W. J. Carter of the city hall station.

Burgars may vote for one candidate for mayor, and five candidates for the council, or for any lesser number.

Only those whose names appear on the voters lists are entitled to vote, and no man can vote twice. Unmarried women and widows whose names are on the voters lists may vote. Married women whose names are on the voters lists may delegate their husbands to vote for them, but cannot vote themselves.

Only those whose names appear on the voters lists are entitled to vote, and no man can vote twice. Unmarried women and widows whose names are on the voters lists may vote. Married women whose names are on the voters lists may delegate their husbands to vote for them, but cannot vote themselves.

BRENTON CHALLENGE NOT TAKEN UP

J. R. Brenton wishes to advise the public that his challenge to meet any candidate in the Empire theatre tonight has not been taken up. Consequently the chance to listen to Mr. Brenton's elucidation of civic affairs, has been lost to the public.

WILLIAM SENNETT WEEKS.

Mr. Weeks was born at Liverpool, commercial enterprises in Seattle, England, the son of the late James Weeks, superintendent of the Lancashire and Yorkshire Railway Company at Blackburn, and nephew of Mr. Weeks came to Edmonton and established the business of W. S. Weeks, Co., real estate, insurance and financial brokers, making a great success of this. He is also connected with several other commercial enterprises in the city. Mr. Weeks is a candidate for aldermanic honors. Mr. Weeks is one of the chief promoters of the proposed new infantry corps and is an enthusiastic rifle shot.

C. N. R. TAKES OVER PRINCE ALBERT LINE

Winnipeg, Man., Dec. 7.—The Regina to Prince Albert line, which has been operated hitherto by the Canadian Pacific will, unless something arises to cause further delay, be taken over by the Canadian Northern on December 15. W. A. Brown, general superintendent of the C.N.R., in an interview with your correspondent said, "We are now getting engines and passenger coaches in readiness to operate the branch. These are now being worked up to Humboldt so that they will be on hand immediately they are required. Our equipment will consist of eight to ten freight cars and engines, with cabooses and there will be three passenger engines and trains of coaches. We shall continue the service practically on the same lines which are now in vogue. We shall have two passenger trains, one running each way every day except Sunday as at present and there will be an additional train in readiness to be brought into the service in case of a breakdown. The branch will be under the immediate direction of C. Carey, superintendent, and J. Abbott, assistant superintendent, who are now operating the fourth district which includes the main line from Kamsack to Edmonton and the branches feeding it, and to which the Prince Albert to Regina line will be added. We are going to operate right away the Stony Plain extension west of Edmonton," he replied, "and also the Morinville branch proceeding north from the same point, and with these new branches and the Prince Albert line our total mileage will be over 2,820 miles."

C.P.R. FIREMAN KILLED.

Winnipeg, December 7.—Three men in charge of locomotive No. 730 attached to a freight train east-bound over the Canadian Pacific railway, were blown from the cab by the dropping of the crown sheet, and of the three two were injured, while the third, George Conley, is dead. The accident happened at Scott's Hill, near Whitemouth, between 9 and 10 o'clock yesterday morning, and was caused, presumably, by a shortage of water. George Conley, who died of his injuries on the way to Winnipeg, was a fireman on the engine, and the two injured, engineer and John Ernest Barchus brakeman. The train was proceeding eastward at a rate of about twenty miles per hour when the engineer noticed that there was no water in the indicator glass. Shouting to the other occupants of the cab he attempted to jump, but was too late. As his foot was on the top step the crown fell, allowing the steam and scalding water from the pipes to escape into the firebox, and from there to blow into the cab. Barchus was blown from the cab on to the top of the coal in the tender. Conley was blown out of the cab, past the telegraph poles into the bush, while Munn, being protected by the seat, escaped all but the force of the explosion, and while he was thrown to the ground he was not badly injured. The injured men were brought to the general hospital here. George Conley has been for some time on the Fort William division. He had had rather hard luck for some time past, and had just recovered from an attack of typhoid fever, with which he was laid up in the hospital at Kenora. Yesterday's fatal trip was the second or third that he had made since his recovery. The body was taken to Gardiner's undertaking rooms, where it awaits disposition. His relatives reside near Toronto.

Election of Aldermen.

Vote for STUART-WADE, J.P.

who has resided six years amongst you studied your requirements, and has no question but your own!

HE THEREFORE ADVOCATES:

Personal responsibility of every public official, great or small.

Improved administration; simple system of accounts, sound business methods; radical reorganization if necessary.

Better lighting of the city streets, and street grading of same.

Improved fire protection, more hydrants, cleaner lanes, general sanitary precaution.

Gradual focusing of water and sewer mains, electric and telephone lines upon the lanes of the city, thus saving damage to expensive sidewalks and main thoroughfares—when repairs are required, also danger and inconvenience to traffic.

Public library and reading rooms, also a central public park.

The formation of a civic "Advisory" committee, to be composed only of experienced men selected from, or delegated by, the various technical and mercantile industries, practically a subordinate council to which important or intricate matters may be referred for enquiry and written report, for the information of the city council.

Appointment of a limited number of city overseers, at good wages (not exorbitant) only skilled and practical men being employed as such,—their duties to be: Personal presence, and responsibility at all times for local supervision, quality and quantity of work performed, loss or waste of stores, material or time.

Date of Election:

MONDAY, Dec. 10, between 9 a.m. and 5 p.m., at City Council Chamber.

Try A Bulletin Want Ad.—It Pays

MR. DAWSON'S QUALIFICATIONS

Formerly Managed a Brewery and Owned Stock Oil—
Congratulates Himself That He Has Not Lived
Long In Edmonton

Edmonton, Dec. 8, 1906.

Editor, Bulletin.

Sir: I have read with some amusement your editorials of the 6th and 7th insts., in the majority campaign, and since the bulletin is not indebted to me, I can therefore ask for no favors, but desire you to insert this letter in your issue of today as ordinary advertisement matter.

Reading between the lines, your readers must necessarily come to the conclusion that my friend, Mr. Bellamy, is a sort of heaven born knave, and that your humble servant is a man of no business experience.

I apparently wasted a good deal of eloquence and horse hire on your former proteges since when my turn comes I cannot get a square deal.

While Mr. Bellamy is doubtless high minded, honest and self-sacrificing, yet so far as I can learn, he has acquired the competence of which you boast by selling on commission for companies to farmers on slow motion wagons, plows, and other implements, which business you surely cannot maintain requires a very high order of intelligence.

If I might be allowed to refer to myself, my experience has not been confined to the practice of law.

was at one time vice president of the London Furniture Company, a very extensive manufacturing company. Conducted and sold out the Bay of Quinte malt house, Kingston, was interested in and assistant in the management of the Germania Brewing Company, of New York, the John McMillan Oil Refining Co., of Montreal, and the Cornwall Gas Works; owned and operating some 200 oil wells in the Australia oil fields; assisted in the operation of an oil refinery in Petroia, and am at present president of the Intercolonial Deep Well Drilling Co., operating in Australia, the largest company of its kind in the world, having at the present time contracts with the various Australian governments amounting to upwards of half a million dollars. Previous to coming to Edmonton I was chairman of the finance committee of the town of Petroia. I give you the above facts with some diffidence, but feel that in view of your editorials it is due to myself and supporters that the electors know I have had at least some small business experience. Furthermore, I cannot but congratulate myself that I have not like my friend Mr. Bellamy, spent 14 years of my life in Edmonton. Yours,

H. J. DAWSON.

Routine Work of the City Council

Besides running close to the shoals of technicality and also laying bare the true state of affairs with regard to the telephone system, the council last night accomplished considerable routine business. The health bylaw passed its third reading and arrangements made to appoint a health officer. Applications for the position to be in not later than Thursday next, the 13th. The office carries with it a salary of \$2,000 a year. Besides the health bylaw, arrangements were made to have Mr. C. H. Mitchell, water power expert, examine a place 35 miles up the river, where a 16-foot head can be developed by cutting a canal across a bend in the river.

The only other action of importance was to give the city engineer a six weeks' trip at the city's expense for the purpose of picking up pointers for next summer's work. He will visit Vancouver, Victoria, Seattle, Toronto, Peterborough, Philadelphia, Montreal, New York and Detroit, and may take a look at the re-building of San Francisco.

The other work of the council last night was devoted almost exclusively to correspondence.

A letter was read from William Whyte stating that he had noted the petition presented to the council and the action taken thereon, and that the company would be willing to bridge Hardisty to the full width and to use concrete for the side walls of the Jasper avenue subway, but could not entertain a proposition to lease the parts of Peace and Athabasca avenues, and also pointing out that the railway commission had power to order overhead bridges whenever they were required on these avenues. The company could not make any further concessions, said Mr. Whyte.

The letter was received and filed. John A. McDonald, of the Montreal Street Railway, wrote applying for the position of superintendent of the operating department of the proposed street railway. He quoted an experience extending over fifteen years. The letter was filed for future reference.

Molson Bank asked a rebate of 33 1-3 per cent. on their business tax, as they were only in business since the 1st of May. The rebate was granted.

The Alberta Milling Company, C. Nairn, wrote saying that in regard to the action of the council in refusing to comply with their request for a rebate on taxes on the ground that they had not appealed, he claimed that the notice of assessment had only been received two weeks previous to the court of revision, during which time he was away at the coast.

As neither the mover nor the seconder of the motion to refuse the application were present the question could not be opened up. The letter was filed.

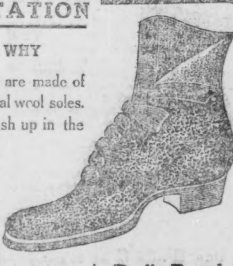

The agreement between the city and the P. Q. Dwyer Company, providing for the pipe line and electric line extension to the proposed packing plant, was read and approved and the city solicitors and commissioners instructed to prepare a bylaw for the purpose of raising the necessary money.

The agreement between the city and the Edmonton Brewing Company, providing for the extension of the pipe line and electric system to the western boundary of the city and the supply of water and power at the minimum rate was ratified.

A FELT SHOE WITH A GOOD REPUTATION

WHY ? WHY

Because Berlin Shoes are made of pure wool. Good heavy natural wool soles. No nails in the heels to push up in the feet and make them sore and cold. Every detail that goes in the shoe is the best, even to the thread and eyelets. A Felt Shoe made by the largest and oldest makers of Felt Shoes in America. By insisting on the Berlin Brand you are insisting on quality.

The directors of the company have decided to advance the price of this stock to 25c per share at or before the middle of December 1906. Anyone wishing to take an interest in this should send in their application and remittance without delay, as the stock is being rapidly taken up by wide awake investors. Apply to the

The Empire Realty Company

79 McDougall St., Cor. Jasper Ave. Edmonton, Alta.

To the Electors of the City of Edmonton

Ladies and Gentlemen:

For two years I have served you as a member of the city council. I did so, firstly because you honored me with your confidence and secondly, because I liked the work. I believe that I have the courage and capacity to serve you well as mayor of this city and for that reason I offer myself as a candidate for that office.

I have no election pledges or promises to make, as I have conducted myself in the past, so shall I order my conduct in the future. If you have not during the past two years gathered somewhat of my principles and my abilities, then I have served you in vain.

If you elect me as your mayor, I shall accept your service as a lawyer accepts a brief. Untrammelled by corporation affiliations, having nothing to sell to you and no interests to serve, with singleness of purpose and such ability as I may have, I am prepared to serve you as your mayor in 1907.

I ask you for your vote and influence at the forthcoming election.

Your obedient servant,
W. A. GRIESBACH.

SEATS ON SALE AT ARCHIBALD'S DRUG STORE

WORLD'S MARKET

Wheat.—Trade very light and fluctuations narrow until within a few moments of close when short covering and the little commission house buying shot prices up a 1-16 of a cent. The last price however, was slightly under the day's best figures. Opening prices were strong and 1-4 to 3-8 higher on the light northwest receipts and the news was not such that would tend to arouse enthusiasm either on the bull or bear side and the trade in general was inclined to stay close to shore. Live-pool closing cables were unchanged to 1-8 higher. North West receipts, Winnipeg included, totalled only 662 cars. The falling off was the most noticeable at Winnipeg, but the semi-bidder that has raged throughout the north west for the past forty-eight hours seriously delayed traffic and receipts tomorrow and next week will undoubtedly again be large. The action of today's market was such as to warrant us in advising against making purchases on these sharp bulges.

Corn.—The wet weather throughout the corn belt followed by the low temperatures was cause for increased volume of speculation in corn and while the closing prices were only 1-4 higher this does not faithfully reflect the character of today's business. Cash houses and elevator companies and local industries were extremely persistent in their bids for cash and this class of buying is bound to lead to higher prices. This shows that the people who keep in close touch with the market price and the consumers do not consider the price too high. Would advise the purchase of corn.

Oats.—This market was in sympathy with the advance in wheat and corn. We still favor the long side of oats for a long pull.

Provisions. The market was strong opening, but worked off slightly toward close. The provision market is becoming quite active and we look for much higher prices in the very near future in this market, especially for pork which we still continue to advise buying on any slight recession.

STOCKS

New York, Dec. 7.—The stock market opened just about steady this morning, but soon became active and very strong, led by Canadian Pacific which advanced no less than seven points today making at least fifteen points advance during the past few days during which we have advised and urged our friends to buy the stock and hold for a big profit. We are still bullish on this stock and still urge its purchase on any little reaction from the present advance. Remember: The big advances in C. P. R. is yet to come. There are also some good purchases among the medium and low priced issues and we continue to advise their purchase together with the standard shares on all slight recessions.

AROUND THE CITY.

A meeting of Scotchmen will be held in Houston's hall on Tuesday, Dec. 11, at 8 p.m. to discuss the organization of a club for a weekly social meeting.

Pastor McDonald will occupy the pulpit at the Baptist Church Sunday morning and evening, the subject in the evening will be "The New Likeness."
 —Christian Science Services held every Sunday morning at 11 a.m. Subject: "God the Preserver of Man" and every Wednesday evening at 8 p.m. 630 Second St., opposite the Thistle Bldg. All are welcome.

A wire received from Secretary-Treasurer G. J. Kinneir, who went to Niagara to attend the funeral of his father, indicates that he is snowed in and may not be able to reach the city for several days as no trains are running on the Niagara branch.
 —Mr. Christopher Fabria of Galtstone, Manitoba, who has been in the city for the past week off for his home today. While in the city Mr. Fabria bought thirty-five hundred acres of land and a quantity of city property. Mr. Fabria who has been on a trip to the Coast says that Edmonton is the busiest city he has visited. He is familiar with the west having come Winnipeg in 1872.

—The Executive Committee of the House to House vacation scheme held a meeting last night to complete the returns of its visitors. In some cases the visitors did not have the records completed, and some cases the information was not obtained owing to the absence of the occupants of the house. The severe weather has somewhat interfered with visitors completing their visits. It is desired that the work be completed as soon as possible so that the returns be tabulated and published.

SOCIAL AND PERSONAL.

P. I. Craddock of the McInnis Lumber Co., Morrisville, is at the Pendennis.

Mr. and Mrs. F. M. Morgan have taken quarters at the King Edward Hotel for the winter.

James Bower of Red Deer, came up to the city last night to attend the sitting of the Grain Commission.

WILL ABIDE BY CHARTER.

Editor Bulletin.
 The city charter makes it a corrupt practice to hire horses, teams, carriages, or other vehicles for the purpose of conveying electors to or from the polls. I propose to abide by the charter in this as in all other matters, and trust my friends will recognize the fact, and vote for me just the same.
 J. R. BRENTON.

THE GRAIN COMMISSION

Representative Farmers Give Their Views at the City Hall

The Dominion grain commission held its second session in the province of Alberta today in the City Hall, Edmonton. Those of the commission present were Mr. John Miller, chairman, Indian Head; C. E. Goldie, commissioner, Agr. Ont.; Mr. J. R. Boyle, M.P.P., secretary, Edmonton; Mr. Nield official stenographer, Toronto.

A representative gathering of the farmers and farmers organizations were present and an interesting and profitable gathering is promised. Mr. Miller stated in opening the session the commission had the widest scope in dealing with all matters relating to the grain trade, and invited the fullest and frankest discussion.
 Owing to the pressure of other local news the detailed report will not appear until Monday.

CITY COUNCIL HAS EXCITING ADVENTURE

Very Nearly Legislated Itself Out of Existence At Last
 Night's Meeting

The city council had a somewhat interesting time at the meeting last night.

It all came up over the Canadian White Company contract. The commissioners presented a report showing that they and the White Company had completed an estimate which indicated that the whole sewer would cost \$191,000, or when \$15,000 worth had already been completed. The company wanted 10 per cent for carrying out the work but in case the city should decide to cut down the amount of the work the company was to get \$15,000 anyway.

Alderman Bellamy moved that the report be accepted and the White Company given the contract on the 10 per cent basis.
 Alderman Calhoun was against the proposition from the first mention. He said that the contract should be put up to tender again and a bond required to guarantee its completion, or the city should do the work by day labor. He argued that the White Company's proposition did not guarantee anything to the city except that they would have it done some time next fall; but that there was absolutely nothing to protect the city from any "what the White Company might do. He asked the company representative if his company would be willing to undertake to complete the work for \$175,000 and receiving an answer in the negative he said, "Then

FIRE TO-DAY ON CAMERON STREET

Brigade Turned Out At An Early Hour To-Day

The fire brigade was called out at an early hour this morning to a fire in the house of Edward Miller on Cameron street.

The fire destroyed a shed or lean-to and some damage was done by water to the main house. It is supposed the fire originated in the shed from a pile of hot ashes. When Mr. Miller opened the door the blast burst in upon him. He quickly closed the door, ran to a neighboring house and 'phoned the alarm. The family was able to return to the house as soon as the fire was extinguished.

City Telephone System

In answer to a question asked at the council board last night by Alderman Mays it transpired that Edmontonians need not look for any relief from the present state of telephone affairs until well along next year, probably in June or may be even later.

Alderman Mays wanted to know if the new system could be put in this winter, and he was told by the commissioners that it could not.

He then asked if another board or two might not be added to the present one, and he was told that the telephone switchboard now in use is already away larger than it has any right to be, and that to add another unit would be simply out of the question.

Next he asked if two telephones could not be put on one wire, and the pressure thus relieved. Here again he was answered in the negative. Induction was too great, and if more instruments were added the subscribers would not be able to hear at all.

Alderman Mays asked how many applications there were in, and was told that 130 had registered their applications, and some three or four hundred more have said they want telephones, but did not register, as they were told at the city office that there was no use. There can be just exactly 12 more telephones added to the present board as soon as the necessary instruments arrive, and after that not another one until the new plant is completed. As the severe weather set in earlier than usual this year the contractors would not be able to fulfill their contract to complete the telephone central building in February, and the commissioners had no way of knowing when it could be completed.

The material for the conduit pipes and cables had not yet been ordered, but Alderman Mays was told that the telephone expert had an order prepared which he was going to send in in the near future. The Lorimer people, who are making the automatic switchboard, have been heard from, and they say that they will have their part of the plant ready before the city can use it.

Alderman Mays remarked that all this showed a deplorable state of affairs, especially in view of the fact that a telephone on the present system, as bad as it was, might be sold any day for \$100.

BULLETIN CO., Ltd.
DUNCAN MARSHALL,
Manager.

SATURDAY, DECEMBER 8, 1906.

CONCLUSIVE.

The Calgary Herald finally disposed of the Gleichen argument in this manner:—

"Comparing Mr. Walsh and his opponents, the Alberta says the latter 'is the best man. Such a statement' 'proves nothing but the imbecility of the writer.'"

HIS IDEAL.

The Calgary Alberta of Thursday reporting a meeting on behalf of Mr. Walsh, said:

"Mr. Heibert, M.P.P., followed and attacked the press wholesale. He knew that both Calgary papers had 'told falsehoods in the recent past' and he had no faith in them. In fact he got quite cross with the 'newspapers, doubtless holding them responsible for the dastardly attempt to disintegrate the great Conservative party of two. Mr. Walsh 'was his ideal.'"

What Mr. Heibert thinks of the press may be a matter of more or less interest to the parties directly concerned, but what the public will be more interested in is the fact that Mr. Walsh has been 'campaigning for Mr. Walsh and considers him 'his ideal.' It would be not less interesting to know what Mr. Heibert's leader thinks of Mr. Walsh, and incidentally, of Mr. Heibert also.

ENGLISH RECRUITS.

British soldiers will again garrison the Citadel at Halifax, according to an announcement made by the minister of militia in the House a few days since. This time, however, they will be commanded by Canadian officers and maintained by the Canadian Government. It will be recalled that a year or so ago Canada undertook to relieve the Imperial Government of the maintenance of the garrisons on either coast and to garrison them with regiments of Canadian troops. Trouble was soon experienced, however, in getting the recruits necessary to bring the force up to the requirements, and unable to secure sufficient men in Canada a Canadian officer is at present enlisting men in England. The scarcity of Canadian recruits need be attributed neither to a lack of patriotism nor a disinclination for soldiering. In the hour of need Canadians have not been found wanting either in martial spirit or in loyalty. But the industrial and commercial conditions of the country today are altogether too favorable to be desirable for the small pay and smaller glory of doing "sentry go" on a fortress which is in no imminent peril. Meantime the soldiers being recruited in England are largely time-expired men discharged from Imperial regiments and should be quite as able to safeguard our beleaguered forts as raw and untried natives.

MERIT RECOGNIZED

It is not so many years since the present Minister of the Interior drew upon himself remarks which were much more direct than complimentary because he suggested in the House of Commons that crime might be less prevalent in the Province of Ontario if the Northwest Mounted Police system were extended to that province. The suggestion was construed by certain sensitive gentlemen as akin to a reflection on the social conditions of what they are pleased to consider the "premier" province of the Dominion. There are signs however that a proposal along these lines would meet with a different reception today. Events admitting of neither denial nor argument have somewhat reduced the proud assumption that regard for law and order in Ontario is of too superior a nature to be questioned by the less enlightened residents of the other provinces. Meantime while thousands of immigrants from all parts of the earth have been flocking into the west, settling in remote districts or swarming into the cities and towns the absence of lawlessness, the comparative infrequency of crimes and the prompt detection and punishment of criminals have won for the constabulary of the western country the admiration of the entire Dominion and spread their fame far beyond the national borders. Whether or not the Mounted Police system is ever extended to the eastern provinces is of course the business of those provinces, but it is gratifying to the west to know that the merits of the force are more generally known and acknowledged than ever before.

WAILING

Somewhat contrary to expectation and decidedly contrary to precedent the Opposition dropped the "tariff debate" after less than eight hours' talk, reserving their more extended remarks, apparently, for the detailed discussion in committee. The temporary inaction however did not extend to their conferees outside the House. The Manufacturers' Association must be credited with at least knowing when they have made a failure. Hardly had the new schedules been published when the Association went after them, while deputations of manufacturers of this, that and the other thing headed to Ottawa and laid siege to the Minister of Finance.

At a largely attended meeting of the Tariff Committee of the Canadian Manufacturers' Association, held in Toronto the day following the budget speech the new tariff was discussed at length, and the following expression was officially made regarding it: "Generally speaking the new tariff 'is a disappointment. The general tariff is practically the same as the old tariff, and will not encourage the establishment of new industries. The recommendations made by the different manufacturers regarding their individual lines of industry 'have seemingly been disregarded.'"

There is neither uncertainty nor equivocation in this declaration of hostility to the new tariff. The Association is disappointed and disappointed because the tariff has not been increased. The Association's ideal is of course garbed in the moth-eaten phraseology of "encouraging the establishment of new industries," but this dilapidated vestment is discarded by the next sentence, when the source of the disappointment is declared to be that the representations of manufacturers already in business have been disregarded. The grievance is not the fear that new industries will not be brought into being to compete with those existing, but the claim that those already existing have not been permitted to fatten more rapidly at the public expense.

The acute disappointment of the gentlemen appears to have interfered with their reasoning, for the next paragraph in their pronouncements is:

"The general tariff is little or no improvement as a protection against the United States, while, on the other hand, the intermediate tariff, 'if it is made applicable to the United States, would be disastrous to many industries. The various manufacturing sections of the association have now under consideration the specific items.'"

If the general tariff is of little consequence as "protection" against the manufacturers of the United States, why should the Canadian manufacturer view with apprehension the possible reduction of the general tariff by means of the intermediate tariff?

Asked by the press for a statement, Mr. George, former president of the Association, said:

"Our principal reason for asking for a revision was to have the general tariff raised so that United States manufacturers would be compelled to locate their factories in Canada instead of producing their finished goods in their own country and sending them into Canada. We felt this would establish more industries here and put manufacturers of both countries on a fair competitive basis. Now large manufacturers across the line turn out their goods there and then ship them over here. It is clear Canada gets less benefit than she would if the factories were located within the Dominion."

That it is desirable that the American manufacturer wishing to enter the Canadian market should locate his factory in Canada rather than south of the boundary is of course true, but Mr. George appears to have overlooked the historical fact that it was not until the protective tariff had been very materially reduced by the revision of 1897 that the American manufacturers began to cross the border and locate their factories in Canadian towns. Nor did he explain that under a high tariff the Canadian manufacturers would be able to demand such prices for their products that the American manufacturer could pay the duty and still sell his products at a profit in the Canadian market.

Proceeding, Mr. George said and other reason was: "That we believed

the present prosperous times would "not always continue, and that owing to the good times there is not the keen competition now that may reasonably be expected in a few years. It was considered by the manufacturers that the revision should make preparation for the lean years which may come by raising the duties and building up all industries while the country is healthy. You know there is not the sharp competition when times are good that characterizes trade conditions when times are hard. We cannot expect to have such general prosperity many years more, and unless the tariff is raised when trade is flourishing there is little chance for some industries ever "developing."

In other words, the manufacturers consider that when the country is prosperous it should generously adjust the tariff in such a manner as to preserve the manufacturers from the possibility of feeling "hard times" if such should come. And the distress particularly feared is the keener competition among manufacturers which hard times engenders; in other words, the time when the conditions of life are hardest on the public is the time when the public should prevent competition which might make those conditions easier.

MOCK PARLIAMENT

On December 14th the students of Alberta college will hold a mock parliament. The members of the government are as follows:
Premier—Mr. Wm. Wyman.
Minister of Finance—Lozier Clarke.
Minister of Justice—G. Heath McDonald.
Postmaster General—Herb Dixon.
Minister of Public Works—Claud Ritsson.
Minister of Militia and Defence—Lyte Reed.
Minister of Interior—J. L. Wright.
Minister of Marine and Fisheries—True McCully.
Minister of Railways and Canals—Miss Maynard.
Minister of Agriculture—Mr. Harry Cushing.
Mr. Teifer, Miss Grady and Miss Finley without portfolio.
Minister Moral Reform—Miss Mead.
Leader Opposition—W. Smith.
Leader Independent—A. J. Law.
The subjects of debate will be—Canada should be Independent; Re adjustment of Provincial Boundaries; Government possession of Railroads; Abolishment of Senate; Chinese Question.

Novelties For Christmas
AT Hudson's Bay Stores

We are now showing a large assortment of choice selected goods for the Xmas Trade. A few leading lines will be found below.

A very acceptable present for the Men will be found in a Smokers' Table, including Cigar Cutter, Ash Tray, Holder and Pipe Holder. The whole set for \$2.50. This is worth investigating.

A beautiful line of Manicure Sets we are selling for \$6.50; seven pieces set in ebony and encased in a satin-lined box. This makes a very choice gift.

Another line of Manicure Sets in satin-lined case are for sale at \$3.50. This is a bargain.

We have also a lot of Ladies' Dressing Cases at prices ranging from \$6.50 to \$10.00.

A very choice selection of Needle Cases, Work Boxes, Pipe Racks and Pictures are now to be seen in great variety.

bless papa, God bless mama, but, good-bye God, I'm going to Edmonton."

Perhaps I would have been influenced by the story but, fortunately, I met the baby girl and questioned her myself. "Oh!" said she, "Papa misunderstood me. He's off on his punctuation. What I said was 'God bless papa, God bless mama; good, by gum! I'm going to Edmonton.'"

And, ladies and gentlemen, every night I watch this space to see the curtain rise. I want to know what four words the Crown Real Estate Company, 24 Jasper Avenue, have put behind the curtain. I know, too, that the person who first gives the correct answer will receive \$15. I need the money. In waiting I bid you all good night.

24 Jasper Avenue

News from Ottawa

Ottawa, December 7.—

The government feel the need of a wrecking plant in the Maritime provinces, to save the ships and lives of sailors and passengers. The department of marine proposes, therefore, to subsidize a wrecking plant to be available from the Bay of Fundy to the Gulf of St. Lawrence. The headquarters will be at Sydney harbor in Cape Breton, where, under the proposed contract, the steamer of 230 tons the D. H. Thomas will be stationed permanently with an efficient fleet on call of a dozen other steamers. There is a wrecking plant at Quebec, and another in British Columbia, but hitherto there has not been a plant under contract with the Federal Government, which gives \$10,000 a year subsidy and specifies the charges per day to be made by the various steamers. Mr. Johnston, M.P., and other maritime members have been pressing this matter upon the department for some time past.

A bill will be introduced to incorporate a company under the name of "The Lake Superior and Hudson's Bay Development and Canal Company" with power to create a navigable waterway between Lake Superior, James' Bay and Hudson's Bay by way of Nepigon river, Nepigon lake, the water stretches between Nepigon lake and the Albany river, the Albany river to James' Bay, by the water stretches between the Albany river and the Severn river and by the Severn river to Hudson's Bay. Application will be made for an act to incorporate "The Port Arthur Power and Development Company" with power to use and operate the water power on the Nepigon river, the Black Sturgeon river and the Pigeon river, in the district of Thunder Bay and construct works and buildings in connection with the same.

The tariff delegations are still arriving in the city, although there is no appearance of any changes in the tariff in sight. On the contrary, there is a strong opinion that the protective features of the tariff ought not to be further strengthened although it is what all the delegations are after. The manufacturers of lead sheet represented by A. Robertson of Montreal and Mr. Keefe, St. John, are asking for more protection. They say that it has been reduced 20 per cent. The manufacturers of silk neckties are also in the city. They want the old privilege of bringing in silk to make neckties at 10 per cent. duty restored. This was abolished and the duties rearranged to prevent the silk being used for other purposes.

NORTH ONTARIO MODEL FARM.

Toronto, Dec. 7.—The Minister of Agriculture for Ontario has selected a site in the township of Newmarket in the district of Nipissing for the new experimental station for New Ontario. The site is one mile square and the land is considered excellent for the purpose. It is good clay loam well decayed and has also the advantage of being intersected by the Temiskaming and Northern Ontario railway.

A CALIFORNIA SHAKE.

San Luis Obispo, Cal., Dec. 7.—At 10.40 last night this city experienced an earthquake shock which lasted more than thirty seconds. The shock was from north to south. Half an hour later a shock was felt but was not so pronounced as the first. The earthquake was also felt at Santa Maria, Guadalupe, Cayceos and Cambria. At the latter place articles were shaken from shelves. No perceptible damage was sustained here.

NORTHERN BANK AT MACLEOD.

Macleod, Alta., Dec. 7.—A branch of the Northern bank has been established here during the week. Macleod now has three banks and a fourth, it is said, will soon follow. A supply of coal, which will tide over the situation some time was received here during the week.

TROUBLE IN MOROCCO.

Mesila, Morocco, Dec. 7.—A detachment of the Sultan's troops have crossed the Moulouya river and native runners report that the Pretender's followers are preparing to attack the sheriff in force. The result of the battle is anxiously awaited.

CEMENT PLANT BURNED.

Pittsburg, Dec. 7.—The plant of the International Portland Cement company at Elizabeth, Penn., near here was damaged by fire today to the extent of \$200,000. The plant was owned by Philadelphia capitalists.

QUEBEC HOUSE.

Quebec, Dec. 7.—The Quebec legislature has been called for the purpose. It is good clay loam well decayed and has Dr. Pellier, member for Sherbrooke is likely to be the next speaker.

FELL FROM A ROOF.

Winnipeg, Dec. 7.—While shovelling snow from the roof of the Wesley rink last night, A. Cameron, of 289 Furby street, fell landing on ice sixteen feet below and sustained a fracture of the skull from which he may not recover.

WAGES INCREASED.

St. Thomas, Dec. 7.—Following the raise in wages of the Michigan Central yardmen here comes the announcement that all men in the company's shops here will have their wages increased. Boiler-makers, machinists and blacksmiths got two cents, car inspectors \$5 per month extra and all men one cent an hour advance.

PREACHER FINED.

St. Thomas, Dec. 7.—W. G. Carlton, assistant pastor of Disciples church, Mapleton, was today fined \$10 for hitting Clinton Smith, during the course of a row in the basement of the church. Smith was making a racket and was struck while being ejected. Other actions may follow.

MAY SUE DIRECTORS.

Toronto, Dec. 7.—It is stated that on the appointment of the new directors for the Ontario bank they will take action against the old directorate to recover losses. By the addition of E. R. Wood to the shareholders' committee they think they have control of the shareholders' votes. He is understood to bring in 3,000 votes held by brokers and 490 shares held by the Canada Life Insurance Company.

The Bulletin is the "Want Ad" Exchange of Edmonton

STRATHCONA.

LOCALS

—The term examination of the high school begins next week.

—The members of the Young Men's Club, of Knox church, will hold their regular monthly meeting at the home of the president, Mr. R. P. Lewis next Thursday evening. A debate will take place on the Chinese Head Tax and a number of the young men will participate.

—Rev. C. W. Corey goes to Leduc today, where he will assist Rev. Mr. McDonald in the Sunday services. Rev. Mr. Alexander will preach in the Baptist church here at both services tomorrow.

—The regular monthly meeting of the W. C. T. U. to have been held yesterday at the home of Mrs. H. B. McKenzie, has been postponed till next Friday and will take place at the home of Mrs. J. Gainer. Any contributions of literature for the "Lumber Camps" may be sent to Mrs. Gainer's.

—The annual anniversary service of Knox Presbyterian church will take place on Sunday, Christmas Eve, at 7.30. Rev. Mr. Myers of Quebec's avenue Presbyterian church will not be present as anticipated but in the evening Rev. Dr. McQueen will speak and give a history of the church from its inception to the present time. As this will probably be the last anniversary service in the present building, more than ordinary interest will attach to it.

—The Vogel Meat and Packing Co., while boring for water, discovered a vein of coal seam underneath their property and contemplate establishing a colliery.

—Plainsdealer: Some time last summer a couple of men belonging to a Dominion lands survey party engaged up the river, were drowned, apparently by while endeavoring to cross the river on a raft. One of the bodies was recovered soon after the drowning and the other was not found until a few weeks ago. The parties who discovered the body notified the Mounted Police and were instructed not to disturb the body until they arrived to take charge of it. A lumber man from the vicinity, seventy miles up the river, where the body was found, informed the Plainsdealer on Saturday last that the remains still lie where they were discovered awaiting the long delayed coming of the police.

At the regular meeting of the literary society of various schools yesterday afternoon plans were given by Misses Inez and Sybil Clark and Miss Bell, and Miss Francis Bennett; also a vocal solo by the Jean Sisters. An interesting lecture on Rome was also delivered by Principal Jenkins, M. A., who dealt very interestingly with the classic city both in ancient times and at the present day. The first meeting of the literary society last Friday will be the last of the present term and a special session will be made to have an especially enjoyable afternoon.

CANDIDATES FOR MUNICIPAL HONORS

THE CITIZENS WHO ASK THE FRANCHISE OF THE RATEPAYERS

THOMAS BELLAMY,
(Candidate for Mayor)

Thomas Bellamy is one of Edmonton's old timers. He was born in Clark township in the county of Durham, one of the old strongholds of Liberalism in the banner province. He came to Edmonton when the city was young, in 1892 and established a branch here of the Massey-Harris Co. In 1894 Mr. Bellamy started in business for himself in the agricultural machinery and vehicle line, following this so successfully that he is now able to retire with a sufficiency.

Almost since the day of his arrival Mr. Bellamy has taken an active interest in municipal affairs. In the early years the city council was in the formative stage he was a strenuous advocate of the principle of municipal ownership and to his work in those days the present happy condition of the city in that regard is partly due. He was one of the most violent opponents of the idea by which the street car franchise was obtained for two years to a private company, and although he made enemies at that juncture on this score, the test of time has proven the wisdom of his stand. On the question of municipal ownership Mr. Bellamy is a "sold man."

Mr. Bellamy is familiar with the workings of municipal affairs for 12 years. He went into the old town council first in 1894 and was re-elected in 1895. Since then he has never ceased to take an interest in every civic undertaking and was always found with a clear stand on every question. He is now completing a two-year term at the council board and offers the city the benefit of the accumulated experience of all these years.

HERBERT J. DAWSON
(Candidate for Mayor)

Herbert J. Dawson was born on Sombra, on the banks of the blue St. Clair on the 2nd of July, 1860. He went to school in the old Sarnia grammar school, which is always reckoned to have turned out more prominent and successful men than any other educational institution in Canada. He studied medicine in Sarnia, and Toronto and turned to law at the early age of 19, studying in Carr, McDonald, Davidson and Patterson's office in Toronto, where he took one of his degrees.

From 1885 to 1903 he practised law in Petrolia and incidentally engaged in the oil business, putting down over 200 wells. He is still interested in oil in Petrolia and is president of the International Boring Co., a company which is making the desert of Australia blossom like the rose.

Mr. Dawson came to Edmonton in 1893 and has since practised law in the city. He is also heavily interested in real estate. He is a member of the Ison and Patterson's office in Toronto, B. C. and Alberta bar.

Mr. Lamm, one of the popular proprietors of the Hotel Cecil, was born in France in the year 1872, and received his education at the Victoria College, Paris. He studied chemistry in Paris, but not liking it, started in the hotel business.

In 1887 he removed from Paris to Edinburgh, and was there appointed manager of the Windsor hotel, and held the position for three years. Going to London, England, he started business on

his own account, but disposed of his interests there and occupied the next two years in visiting the various capitals in Europe, gaining an extensive knowledge of the hotel business in every branch. Two years ago Mr. Lamm came to Edmonton, making some very profitable deals in real estate, and also a host of friends. A short time ago he formed the above company, opening the Hotel Cecil, which has proved an instantaneous success, being replete with every modern convenience, and one of the most up-to-date in Western Canada.

for the past fourteen years, and during which time he has been a close observer and student of civic government.

JAMES BURNS WALKER
(Candidate for Mayor)

Mr. Walker, the eldest son of the Rev. W. P. Walker, a Presbyterian clergyman, of Westmount, Montreal, Quebec, was born at Alberton, Wentworth County, Ontario, March 23rd, 1874. He received his education at the Ontario public schools, and Hamilton Collegiate Institute. Upon its completion he entered into commercial life, identifying himself with the insurance and financial business at Hamilton. In April, 1894, Mr. Walker severed his connection with one of the leading wholesale houses of Montreal, in whose employ he had been for seven years, and came west, settling at Edmonton. A few months later he started business as an insurance, financial and commission broker, and has succeeded in working up a successful business. Mr. Walker is a Liberal in politics, and an active member of the Edmonton board of trade. He is a candidate for municipal honors at the forthcoming election, having been a resident in some of the largest Canadian cities.

Allderman Latta is a retiring member of the council who has not offered himself for re-election.

WILLIAM G. WEST
(Candidate for Alderman)

W. G. West is another old timer. He has been nearly twenty-five years in Edmonton. In the early days, before the province of Alberta became the Mecca of the settler and the railroad man Mr. West was a farmer and freighted on the Calgary and Edmonton trail before the days of the iron horse. Since moving to the city he has followed his trade of brickmaking and contractor, in which he has been successful, with a foresight that has made him money. Mr. West secured several blocks of real estate in the early days which are today sufficient to put him on easy street.

Allderman Smith will serve a second year on the council to be elected Monday. He is one of the three remaining.

J. R. BRENTON, Candidate for Alderman.

J. R. Brenton is an American by birth. He comes from the old blue grass state of Kentucky and his people claimed family ties with General George Brenton, McClelland, General Fremont and several other history makers in the American Union. While he was still at an early age his parents left Kentucky and came west, finally settling in Manitoba, from which province Mr. Brenton came to Edmonton twenty-five years ago. For most of the time Mr. Brenton has been identified with coal mining and he now has charge of the City Coal Company's workings, in which concern he is a large stockholder. Mr. Brenton has been fortunate in real estate and holds some valuable property in the city.

W. A. GRIESBACH
(Candidate for Mayor)

Mr. Griesbach, a true son of the West, was born at Port Qu'Appelle, Jan. 3rd, 1878, and received his education at St. John's College, Winnipeg. Upon its completion he studied law in Edmonton and in 1901 commenced to practise on his own account and has attained a considerable degree of success. Before graduating Mr. Griesbach,

who holds a commission in the Canadian Mounted Rifles, was in active service throughout the South African war, serving under Col. Evans. In 1903 he ran for city council, and was defeated but duly elected in 1904 and again in 1905. In 1905 he ran for Provincial Legislature, for the City of Edmonton, but was defeated. Mr. Griesbach enjoys a wide circle of friends in both business and social life, who predict a promising future for him.

THOMAS DALY
(Candidate for Alderman)

Thomas Daly is one of the old timers. In fact he was an old timer when the old timers arrived in Edmonton. A Canadian by birth, Mr. Daly came to Edmonton twenty-three years ago and became a farmer at Clover Bar, which occupation he followed until two years ago when he retired from the pursuit of agriculture and became a resident of Edmonton. Mr. Daly has been prominently identified with education, immigration and farmers association affairs in this country for a long time and he has a thorough knowledge of the needs of the agricultural conditions of the country. He has always been a strong Liberal and is still chairman of the Liberal association at Clover Bar.

LUCIEN DUBUC
(Candidate for Alderman)

Lucien Dubuc, B.A., advocate, ex-M.P.P., candidate for municipal honors, has been a resident of Edmonton for six years.

Mr. Dubuc was born in Winnipeg on November 29th, 1877, and is the son of the Honorable J. Dubuc, chief justice of Manitoba. He graduated from the University of Manitoba, of which his father was for many years, and is still acting as chancellor.

Mr. Dubuc studied law in Winnipeg and was called to the bar of Manitoba in June, 1904, and a short time afterward came to Edmonton, where he entered the law firm of Leck, Emery and Dubuc, of which he was a partner until a year ago, when he formed with his brother, Albert Dubuc, the law firm of Dubuc & Dubuc.

Mr. Dubuc was elected at last Provincial election for Peace River District by a large majority, but the election was afterwards annulled on account of notice for holding of some polls not having reached the legislatures in sufficient time.

ANDREW H. ALLAN,
(Candidate for Alderman)

Andrew H. Allen, candidate for the city council was born in the riding of St. Mary's, Montreal, in 1876, attended the Protestant separate schools of the city, from which he graduated with a scholarship through the Montreal high school, obtaining an A. A. degree in McGill at 15 years of age. He followed up mercurially for several years, having positions of trust with such firms as the Massey-Harris,

Sharey & Co., and Seybold Sons Co. He came to Edmonton in May, 1905, and has been a resident and ratepayer here ever since. In his home city Mr. Allen always took a keen interest in politics, both local, federal and provincial, and was a strong Liberal with a tendency towards Radicalism. Mr. Allen believes that the commissioner question is the crux of this campaign and promises some radical changes in this regard as well as with relation to the methods of conducting the city's business both in the council and out of it.

ALDERMAN ROBERT MANSON.

Alderman Manson is one of the three members of the old council who will serve next year.

WILFRID GARIEPY
(Candidate for Alderman)

Born in Montreal, March, 1877. Graduated McGill University. Resident of Edmonton since 1892. Practised law four years in Edmonton. Was one of the counsels of D'Amour, mentioned as probably Liberal candidate in St. Albert last provincial elections.

VOTE FOR
LUCIEN DUBUC
FOR ALDERMAN.

DR. MCCAULEY, CANDIDATE FOR ALDERMAN

Dr. McCauley was born in Inverness County, Cape Breton and went to school at Sydney Academy and the Dalhousie college from which latter he graduated, taking out his degree as a medical professional. He was two years surgeon in the Halifax hospital and for ten years practised medicine in Pictou County, during which time he was three times elected to the Pictou Hospital, being still a member at the time of leaving for Edmonton some 18 months ago. Dr. McCauley has been a very successful practitioner here an dis a professional man of public spirit. Although a comparatively new comer there are few better posted men on the city's sanitary affairs and a clean city is his hobby.

DEHORNING STOPS LOSS.

Cattle with horns are dangerous and a constant nuisance to persons and other cattle. Dehorning is the only and most reliable method. Leave a clean, clean-cut, smooth surface. No pain, no blood, no loss of time. Send for free booklet. R. H. Dehorning, Prince, Idaho, U.S.A.

WE WILL TELL YOU

Western Flour for Japan

Winnipeg Free Press: One of the largest orders for Manitoba flour ever received from the representative of a foreign country by a Canadian mill was booked this week by the Lake of the Woods Milling Co. For some time Mr. S. Tamura, a well known exporter of Kobe, has been in western Canada, on an important trade mission, and after a careful study of the situation, decided to secure from this company some 7,000 sacks of flour, three thousand for shipment to Tokyo, and four thousand for Kobe.

This large shipment will go forward on the next two C.P.R. Empresses sailing from Vancouver half by the steamer leaving shortly before Christmas and the second on Jan. 7. The manufactured product at the Portage la Prairie mill will be sent. While a good portion of this order is of low grade, a considerable quantity is standard. Mr. Tamura is anxious to try this brand in Japan and will endeavor to educate his countrymen in the use of it in the making of bread for at least one of the daily meals.

The Lake of the Woods Milling Co. also received an order this week for a shipment to be sent to Suva, Fiji Islands, which although not very large, is substantial, to develop into greater proportions before long.

According to reports in the Pacific coast papers Alberta farmers will soon be able to ship their wheat to the Orient and have it milled there. This will open up two markets for the Canadian producer, as the western mills are already working up a trade in China and Japan with their flour.

Japan is going into the flour-manufacturing business on a large scale. It is said, and by next summer the mills in that country may be grinding about all the flour that is required there. A big mill is also about completed in Hong Kong, China, that will supply a large part of the demand in that section. What will still be drawn from the coast, but the grinding will be done on the other side.

Flour-mills with a capacity ranging from 500 to 800 barrels a day are now being built at Kobe, Tokyo and Yokohama, and it is said by next season other plants will be completed that will have a combined capacity of 4,000 to 5,000 barrels a day. This, with the native mills already in operation, will go toward supplying the consumers of the islands.

The whole matter of Japanese manufacture of flour from foreign wheat hangs upon the tariff regulations of that country. Japan has adopted the protective policy to foster its home industries and in order to help out the flour mills already built or to be established, has put a duty of about \$1 gold a barrel on foreign flour. The duty on wheat is only a fraction over twelve cents a bushel. It is figured that the consumers there and in the flour trade in Canada that the building of flour mills in Japan to grind wheat shipped from the Pacific coast will therefore prove a profitable investment.

On the face of it the scheme seems entirely practicable if the question of disposition of the by-products can be solved. As the Japanese consumers will buy a lower grade of flour than is marketable in western countries, a good use can probably be made of the shorts, but how the bran and middlings can be disposed of remains to be settled.

Japan is not a dairy country in any sense of the word, and this product cannot very well be regarded as a waste to be thrown away. In view of the high freight paid upon it. Still the Oriental mills, which, it is said, are preparing to revolutionize the flour business on the shores of the Pacific, of course know what they are doing.

At Hong Kong this big A. H. Reim's mill is about completed. The first cargo of wheat for its use has just left Portland, Oregon, on the steamer Hazel Dollar, and another cargo will be sent over about a month hence on the steamer Hazel Dollar. It is estimated that the demands of the mill will be for from 5,000 to 6,000 tons of wheat each month, which will be secured in the United States and Canada.

The output of the Reim's mill will be close to a thousand barrels a day, and it will supply the trade of a large section of southern China.

Alexander MacLean, Canadian trade agent in Japan, reports that there is great doubt as to the flour trade with Japan, owing to the fact that wheat is admitted free of duty to be ground in Japan.

What About That Library Subscription

The Nor Salt Fields

Calgary, Dec. 6.—The last few years of the lives of John Macdonald, the son of the Rev. John Macdonald, the first missionary who worked in the North West, and Mr. L. C. Ward are full of adventure. Mr. Macdonald has been working for the Hudson Bay Co. in the far north, and Mr. Ward has been trading on his own account with Indian and half breeds for furs for seven successive seasons. These gentlemen describe the country to the farthest north as one which is full of possibilities and they testify with no hesitation to the existence of large salt wells in the neighborhood of Fort McMurray, which once taken in hand and worked would supply the whole of the Northwest with salt at a cheaper price than the price which prevails at present. The price of salt today is 1 1/4 cents per pound retail, and about 2 1/4 of a cent wholesale. The existing supply of salt which is used in Alberta comes from Ontario and if transportation facilities can be obtained this source of salt will be of the greatest value to the province. In this wild country it is no wonder of salt to a trader to spend months without seeing a soul, except perhaps the mail carrier who struggles through the snow and sometimes does his hundred miles in one day. A serious obstacle in the way of the development of the country are the Big Rapids on the Athabasca River which a long bridge is necessary.

The country in this district is the hunter's paradise, and moose, deer, musk ox, and musk deer abound. During the season the half breeds who make up the majority of the hunters and traders, earn from five hundred to a thousand dollars, with the spending of which they occupy themselves during the summer months. Horses are unknown among the Beaver and Athabasca, and dogs and caribou are the only methods of transportation. These Indians are also marvellous endurance and it is not unusual for one half breed who make 500 miles in a little more than seven days. The lakes are full of whitefish of a larger size than the fish that are so widely distributed over Canada and it is only the one great difficulty of transportation that prevents this from becoming a thriving industry. An attempt has been made to harness moose and a trader by the name of Preacher Purdy has succeeded in driving a team of these animals. A more successful tale is told of an Indian who killed his wife and children and ate them. It is refreshing to know that he is dead. Both Mr. Macdonald and Mr. Ward speak the Cree language and were raised in Alberta. It is improbable that there are two men in Alberta of the same of Mr. Macdonald and L. C. Ward who know more of the north country than do these two gentlemen. Mr. Ward is staying in Calgary for a short time and he contemplates developing the salt proposition at an early date. He has

extensive interests in spruce in the north, but does not intend to cut in another winter in the frozen latitudes. Mr. Macdonald is also located in the city at present.

CHRISTIAN SCIENCE
Christian Science service is being held in this city at the Christian Science Hall on Second street, opposite the Thistle Hotel, every Sunday morning at 11 o'clock, and Wednesday evening at 8 o'clock. The public are cordially invited to attend all the services.
The Sunday morning services are unique in the respect that "The Bible" and the "Christian Science Text Book" are the preachers, through human agencies. Correlative passages are given out from both books, containing a beautiful well connected sermon "undivided from Truth," and free from human theories. The attention given these sermons is deeply earnest, every word is eagerly listened to by those seeking truth. The "Christian Truth" which these sermons contain—many have come to Christian Science not knowing what Christian Science is, and found a "Truth" too deep for human expression; some "came to scoff" but "stayed to pray." The Wednesday evening meetings are particularly interesting. At those meetings the intelligence manifested and the testimony given, proving the healing power—established by some two thousand years ago, lost for so many years, and again revealed to humanity by the Christian Science founder, Mrs. Eddy—as remedial and curative in this day, as when the divine command "Preach the Gospel, heal the sick" was first given. All who come to these meetings are welcome.

Frank T. Lally, Travelling Passenger Agent (Queens Hotel, Winnipeg, Man.)

F. M. RUGG, Northwestern Passenger Agent, St. Paul.

To the Electors of the City of Edmonton:

I respectfully offer myself as a candidate for the honorable position of Alderman for the year 1907. In doing so, I believe that I combine a knowledge of the practical working of the city's enterprises with a sincere desire to promote the city's welfare and to get a dollar's worth for every dollar to be expended by the City.

With the suggestions aimed against the present Finance Commissioner I have no sympathy. That gentleman has the only thorough grasp of the city's affairs possessed by any of its officials, and has always striven to get everything that was the city's right and no more. The present Council has inaugurated enterprises that will cost upwards of \$1,000,000 for the ensuing year and to in any way interfere with the tenure of office of the one official who by his integrity and entire command of the city's affairs has the undoubted evidence of the business men of the City would be dangerous and mischievous. With the management of the public works the city for the past year has not in accord. I believe that the City has not received its money's worth; that the men employed by the City were not properly organized and that the lack of organization in this department is most apparent and unless remedied quickly will with the extraordinary expenditure in sight, result in calamity. There is urgent need for caution in the spending of the ratepayers' money, and I propose, if elected, to follow a safe course.

At the same time I believe that it is in the best interests of the City that the Electric Light and kindred enterprises should be placed under a thoroughly capable man as manager, who subjects to a general supervision by the commissioners shall be supreme in his department. The same principle should be applied to the operations of the waterworks. The city having embarked in mercantile enterprises should appoint men to take charge of these who are experts and who would operate those enterprises with as keen ability as is employed by private persons or companies.

In the case of the streets, the public has not received good service, and as good streets are of the most vital importance a change will have to be made. As to the method of civic government the time has passed when the Aldermen can give personal attention to details. That is the duty of the Commissioners whose authority in this respect should not be interfered with. It is one thing to see that the Commissioners are doing their duty properly and quite another to interfere with the exercise of their functions. The council will have quite enough to do to decide what should or should not be done without interfering with the effective carrying out of the work by those chosen by reason of special fitness to oversee the carrying out. Only by organizing a thoroughly capable and effective body of employees can the city hope to succeed in its many large enterprises.

In conclusion I believe in better organization of the City's forces, in the employment to take charge of the civic enterprises of men specially fitted for the work and no others, in pursuing a cautious, rather than an adventurous policy, and in being exceedingly careful not to do anything that would depreciate the value of the City's securities in the money market which would undoubtedly happen from any hasty or ill-considered changes. If honored by your confidence I shall enter it an unquestionable obligation to serve no private or personal end, and to allow no personal prejudice or dislike to interfere with the welfare of the city.

I have the honor to be,
Ladies and Gentlemen,
Your obedient servant,
J. R. BRENTON.

27th Nov. 1906.
Your vote and influence is respectfully asked for the election of J. R. Brenton as Alderman for 1907.

TO THE ELECTORS OF THE CITY OF EDMONTON
VOTE FOR J. R. HETHERINGTON FOR ALDERMAN

1. Municipal ownership of all franchises and utilities.

2. Progressive and honest civic legislation, consistent with economy.

3. I am in favor of a street car service including a belt line, which will accommodate the rapid growing outskirts of the city, also a limited car fare of eight tickets for 25 cts for all working men up to 8 a.m. and from 5 to 7 p.m.

4. I believe that the Commissioners should be elected by the people, with a two years' qualification as alderman and all future mayors should have served two years as Alderman and one year as elected commissioner.

5. I am in favor of a good public market where the consumer can buy direct from the producer, and it need be enlarge the present market for that purpose.

6. I am strongly in favor of giving encouragement to manufacturing industries by giving free water, light, sewerage, and ten years' exemption from taxation, provided they build a plant to cost not less than \$10,000 and employ not less than 50 men annually.

7. Rapid extension of necessary water mains and sewers, to further the sanitary condition of the city.

8. Without any reflection on the present I am in favor of establishing a free public library and a Mechanics Union, where the different working men will be supplied with trade journals and literature bearing on their different occupations and an evening reading room for Ladies and Gentlemen.

9. I advocate two fire halls one for west and one for east end also a cold storage for Edmonton.

10. In the present regime, we might introduce a more up-to-date system of keeping the City's accounts, and I believe in giving annually to the public through the press, or cheap pamphlet form, a detailed statement of all receipts and expenditures of the city treasury so that the ratepayers can know how, and for what their money is expended.

11. There are minor questions, which require great thought and attention.

platform should meet with your ap-
proval, kindly remember me with your
vote on election day.

THE MUNICIPAL CAMPAIGN.

Editor Bulletin

Dear Sir:—I wish to call the atten-
tion of the Electors of the City of
Edmonton to an important feature
that thus far has only been touched
upon very indirectly. We are virtu-
ally electing on Monday next, a Board
of Directors to control our finances,
our taxation, our public works and
other municipal undertakings. We are
absolutely a "private" corporation
working solely in the public interest
—or should be, if we are not. The
question that confronts some of us is
this:—would any private corporation
place the control of their affairs in the
hands of a body of directors such
as those known as the "Solid Five"?
The answer could only be "Never!" Then
why should the Electors of the City
of Edmonton be asked to do that when
a private corporation would consider
unwise?

Mr. Editor, I was present on Wed-
nesday evening, at the Edmonton Op-
era House when the candidates demon-
strated their inability, with two or
three exceptions, to properly discuss,
or even express their views on mat-
ters of the most vital public interest,
and as a resident of the East End for
over three years, I can only say that
if the "Solid Five" are elected, I am
sorry for the prospects of the East
End like-wise of the City of Edmonton.
I would ask each Elector to consider
intelligently, and vote only for the men
who have the ability to take charge
of our civic affairs, as well as having
at heart the progress and prosperity
of our City irrespective of East or
West.

Yours respectfully,

EAST ENDER

Namayo Avenue

TO THE ELECTORS OF THE CITY OF EDMONTON.

Edmonton, 6th December, 1906
Ladies and Gentlemen,

I considered to be a candidate for
Aldermanic honors in the present con-
test, at the request of a large num-
ber of business men who have no
small stake in the City.

My nomination papers were signed
by Messrs. J. A. MacDougall, J. T.
Bloway, J. R. Harper, W. T. Henry H.
Seiger, H. B. Smith, S. Nankin J. H.
Eldred and others.

If elected I shall give to Municipal
Affairs thorough attention and serve
your interests to the best of my abil-
ity. I have been a resident of the City
of Edmonton for the past fourteen
years.

I am strongly in favor of Public
Parks, the construction of an Electric
Street Railway and the extension of
the Sewer and Water Systems through-
out the City. I advocate the imme-
diate construction of a Market Build-
ing, the installation of a Fire Alarm
System and more modern Public
Health regulations.

I believe that reasonable induc-
ements should be given to Manufactur-
ers, and no pains should be spared to
make Edmonton a great Commercial
Centre.

I respectfully beg you to give me
your vote and influence on Monday
next and herewith offer my anticipat-
ed thanks for same.

I have the honor to be
Yours faithfully
WILFRID GARIEPY.

PINE LAKE CRICKET CLUB

The annual meeting of the Pine Lake
Cricket Club was held at the Pine Lake
estate in municipal affairs. In the early days
H. Raikes in the chair. The meeting
was well attended. Minutes of last
year's meeting were read and confirm-
ed. The secretary then presented the
accounts for the year which showed a
balance to the credit of the club of \$16.
On the motion of H. B. Wilson seconded
by W. R. Charley, they were ap-
proved and passed. In accordance with
the rules of the club the election of
officers for the ensuing year was by
ballot and resulted as follows.

President—Mr. H. Raider.

Captain—W. R. Charley.

Vice Captain—C. M. Wright.

Secretary—L. J. Miller.

It was moved by H. Raider, and seconded
by W. R. Charley, that in fu-
ture elections for membership to the
club that two black balls exclude in-
stead of one. The challenge prop-
osed by Mr. Jacobson of Red Deer to
be completed for next year by Red Deer
and Pine Lake Cricket clubs was won
this year by Pine Lake. These two clubs
and after having promised a bat to the
member who had the best batting aver-
age for the season the secretary read
out the averages and W. R. Charley
was awarded the bat for an aver-
age of 25.1. The tennis tournament held
during the summer resulted in A. B.
Wilson and R. Page winning the dou-
bles. The singles were not completed.
A vote of thanks to the retiring offi-
cers was carried with acclamation. The
meeting then adjourned.

We have a splendid Line of Boys' Hockey Boots at - - - per pair \$2.50

GARIEPY & LESSARD

FROM DAY TO DAY

WED AT PONOKA.

At Twin Lakes, Ponoka, Oct. 24, a quiet little wedding took place at the home of the bride's father, Mr. W. B. Lucas, when his daughter, Miss Mary F. Lucas, was united in holy matrimony to Mr. George P. Ferguson, of the same place, the Rev. E. H. Webb, of Ponoka, officiating. Only the immediate relatives of the family were present. The bride was attended by her sister Clara, and Adelaide, while the groom was supported by Mr. H. A. Lucas, brother of the bride. After the ceremony a wedding dinner was served by the bride's mother, assisted by her daughter, Mrs. H. S. Lott, of Calgary. The bride's father is well known in this district, being sent out in '79 as agent to the Cree Indians at Peace Hills, and afterwards transferred to the Sarcee reserve, Calgary. As witness of the high esteem in which the young couple are held the presents were numerous and valuable. Amid the good wishes of their many friends the young couple left on the north train to spend their honeymoon.

A DISTINGUISHED TRIO.

This story—a variation of an old one—has drifted into Edmonton from a Savannah paper, and considering its source and the people of whom it is told its details are funny from their very improbability. Imagine the classic Lord Rosebery asking a street arab to hit a policeman a "swat" on the back! And the idol of Birmingham—pose, monocle, orchid and all—looking on!

The Georgia funny man's story runs:

The Hon. Joseph Chamberlain is fond of relating an incident that occurred while he and Lord Rosebery were returning from the theatre one night. While crossing the street they were accosted by a ragged boy who, after sweeping the mud from their path asked for alms.

Lord Rosebery was about to give the boy a coin when an idea struck him. "My boy," said Rosebery, "if you will hit that policeman a swat I will give you ten shillings." Prompt to the word, the boy crept in back of the officer, and, raising his broom struck him in the back, then turned and ran, but to the dismay of Rosebery, the officer caught the boy after a chase of a few yards.

Not wanting to leave the boy in a fix Rosebery tried to fix things up with the officer, but the worthy gentleman would not listen, and took them all three up to the station.

They were then taken before the judge of the station, and, after surveying them through his glasses, he took down a book and, turning to Chamberlain, asked his name, "Hon. Joseph Chamberlain," was the reply, and the judge smiled.

Rosebery responded also with his full title, "Lord Rosebery."

The boy was next, and stepping to the front he drew himself up to his full height, and waited for the usual question, "Your name?" "My name," said the boy, "Well, judge, I'm not the kind as what goes back on me pals. I'm the 'Duke of Wellington.'"

A BONNIE YOUNG PRINCE.

The little Crown Prince of Norway, son of the new King Haakon, has become a popular idol in Christiania, reports from Europe tell us.

His overflowing spirits and the irresistible charm of his little baby ways have completely conquered the warm-hearted Norwegians.

He is of the Norwegian type, brilliantly fair with his mother's beautiful blue eyes. It is claimed for him that he is one of the best looking of all King Edward's grandchildren and the only one who has inherited Queen Alexandra's delicate coloring and finely chiseled features.

Prince Olaf's entry into Trondheim with the new monarch and his Queen was in reality a triumph. A grizzled naval officer hoisted the short-necked toddler aloft on his shoulder, and the baby prince laughed, kicked his white-socked legs with glee, and kissed his hands to the people who roared back their delight. And the enthusiasm was redoubled when the chubby Prince flourished a Norwegian flag borrowed from a boy on the quay.

At the coronation of King Haakon Prince Olaf again distinguished himself. Recalling weary of the speech he started away from the royal party into a throng of small boys. They had banniers which he coveted. Seizing the boy with a brighter eye than the rest he struggled with him for its possession, secured it and ran back to the King crowing in the pride of his conquest.

King Haakon then took his enthusiastic heir in hand and held him tightly on his knees while they drove to the palace. But Prince Olaf stuck to his banner, and waved it vigorously at every cheer from the people and at every shower of flowers from the balconies.

At the end of this exciting day when the King and Queen had come on to a balcony to receive the plaudits of the people there was a deafening cry for "Olaf." When Queen Maud thereupon brought to-

child to the front, and the King held him at arm's length above his head—a bright, beaming, fair-haired little fellow. So firmly did he conquer the people that the next day the children of Christiania subscribed for a fur costume for him, the subscriptions being limited to a penny each in order that all might be able to participate in the gift.

Nor is this the only present the little Prince has received. An English lady, Miss Ada Musgrove, recently made over to him the absolute ownership of her lovely island named Eorlin Bras, some 20,000 square yards in size, situated in the summer resort of Gode Sound. The island is a little fairy realm with beautiful woods and summer houses and miniature mountains and valleys.

After the pretty coronation incidents of Prince Olaf related there was such a run of photographs that the demand exceeded even the demand for the pictures of the new King and Queen. And later when the royal family had settled down in residence the popular Prince had to undergo a daily mobbing by admiring ladies during his "constitutional" in the park.

Already the Prince is being initiated into the mysteries of state ceremonial. At one of King Haakon's courts he ran about the room insisting upon shaking hands with everybody in imitation of his father and mother, and when the King and the Queen bowed to their visitors before leaving the apartment he stood very straight and gave a military salute.

SOCIAL.

Lady Von Haast, who has been the guest of Mrs. Ferris for some time, left last night for Vermilion, where she will spend some months with her son.

Mrs. Edmiston, with her mother, leaves today for New Brunswick, where she will remain until after the New Year.

Mrs. Riddell, accompanied by her young son, Master Harold Riddell, left today for the Pacific coast, where she will spend a couple of months.

Hon. Mr. Rutherford and Mrs. Rutherford entertained at dinner last night. The guests included the Lieutenant Governor and Mrs. Bullock, Mrs. Walter Scott, Hon. Mr. and Mrs. Cross, Dr. and Mrs. Hialep, Mr. Habbitt.

At a dance given recently in her honor by her aunt, Mrs. Roberts Allan, of Ottawa, Miss Elinor Taylor, of Edmonton, wore a very dainty gown of white accordion-pleated silk, with bertha of old rose point. About fifty guests were present, among whom were Mrs. Mary Davies, the Misses Oliver, Miss Louise Hays (of Montreal), Mr. A. A. LeGuerre, M.P., Mr. Edward Pope, Mr. Alan Powell and Mr. Hatfield Pringle.

Mrs. Dulyea was the hostess yesterday at the noon-hour at a breakfast given in honor of her guests, Mrs. Walter Scott. Covers were laid for ten at the polished mahogany table, which, reflecting exquisite pieces of lace, cut glass and decorations of white chrysanthemums, made an effective setting for an attractive repast. Those invited to meet Mrs. Scott at this enjoyable breakfast were Mrs. John McDougall, Mrs. Saunders, Mrs. Ewing, Mrs. Riddell, Mrs. Chas. May, Mrs. Bellamy, Miss Beck and Miss Graves.
